5AC MEETING

Thurs, Jan. 14

6:00 PM (new time) All interested in the Auburn Airport are welcome to attend the 5AC (Auburn Airport Association Airport Advisory Committee).
KAUN.5ac@gmail.com

President's Message

What's going on HERE!

It's 22 days before Christmas, here's a good plan

To be at the airport with friends if you can

Check all the airplanes, and guess where they're from

So many cool aircraft, I want to fly one.

There's breakfast at Wings, to watch all the flights

Interested young people, it's really a sight

Kids color airplanes, then fly them around

That's at the airport, just north of Town

continued next page...

A statue of "Bud" Anderson can be seen out there too
He flew a P-51 back in World War II
Don't be surprised while you're having some lunch
You may see Colonel "Bud" Smiling, while eating his
brunch.

It's very exciting while hanging around
At the cool little airport just North of town.

If Santa flew airplanes, I would do just the same
I would whistle and shout and call them by
name.

Now Piper, Now SkyHawk, Now Arrow and Cub
On SkyLane on Cirrus, on Mustang and Champ

Off in the distance you hear a great roar
Sounds like a Continental, 300 hp or more
Flying higher than eagles, up up and away
Dance over the Sierras then down to the Bay

continued next page...

Can you imagine all this happening?
At the greatest little airport in the world!
On Rickenbacker Way, Just north of Town!
Happy Christmas to all and to all a good flight!!

That's My Story and I'm sticking to it.

President

Randy Leys

PS. Thx Mucho JR

As The Prop Turns

Merry Christmas to all. It has already been good for several people. **Nick Covington** (pictured below) soloed his Cherokee 160 at

Auburn Airport with **Helen Dobeck** as his instructor. **Kelly Richards** was keeping pace by soloing his student, **Tanner Donohue** (pictured below), also at the Auburn Airport.

Kelsey Dashiell topped them both by earning her Private Pilot certificate. **Jim Duvalle** was the Designated Pilot Examiner for her. Both

Photo: Kelsey and her "village" after earning her Private Pilot Certificate. From left: Peter Hastert, Randy Leys, Kelsey Dashiell, Kelly Richards.

Kelly Richards and **Peter Hastert** tag-teamed as her instructors to help her earn her ticket with flying colors.

Steve Stone (pictured above) got tired of flying around on one engine and earned his Multi-Engine rating with Peter Hastert as his instructor and Jim Duvalle as his pilot examiner. **Camile Tricomo** did not earn a new rating, but she did receive a scholarship from the Reno High Sierra Ninety-Nines. She will be using it to complete her Multi-Engine Commercial/Instrument rating and eventually earning her Multi-Engine Flight Instructor designation. This shows that the scholarships

AAA gives are not just for the beginning pilots, but are available for students of qualifying age working on their advanced ratings. Congratulations to all on a job well done.

Also greasing his way in among the licensed private pilots is **Joe Smith-Stewart** who earned his PPL just a couple days ago. Joe also owns his own PA-28-235. Kelly Richards is the proud CFI to this brand new and very organized private pilot (pictured below).

While on the subject of scholarships, the Auburn Aviation Association's scholarship fund received a tremendous boost this past month. We have had over \$90,000 donated from various people and organizations. More about that from our fundraising volunteers **Doug Fee** and **Don Wolfe** in their own articles about who and what these donations are. Don has mentioned to me about moving our goal post for the fund to \$250,000 for this coming year. Congratulations goes to all those people who have made this possible.

5AC (Auburn Aviation Association Airport Advisory Committee) strikes again. This past month, the city tried to pass some new "Minimum Operating Standards" for the airport without consulting the users. Luckily, **"Mac" McElroy** was advised about the item to be on the City Council agenda and brought it to our attention. Within 12 hours, he was able to get it removed from the agenda. Mac has been leading the 5AC for the past year and has established a good working relationship with the acting Airport Manager, **Dave Spencer**. Dave is also the Fire Chief for the

City of Auburn. The outcome of the whole thing is that Dave Spencer will be getting together with 5AC to hash out the new standards. The date of the meeting is to be announced, so keep in touch with Mac. Thanks, Mac.

Helen Dobeck had a great adventure the other day. Both she and **Matt Carlson** took off in my light sport aircraft and went up to Lake Tahoe. That is quite an adventure unto itself, but the airplane performed wonderfully - a 1320 lbs. airplane with only 100hp. While up there, an Air Force C-17 was in the process of loading a Blackhawk helicopter in the back. One of the crew members noticed Helen and waved her and Matt over and asked if they wanted to tour the airplane. I do not think Helen could say "yes" fast enough. While the tour was kind of short, she did get a picture of herself in the cockpit. Additionally, two Marine Corp helicopters came in and proved to be pretty impressive. It was one of those adventures you could not plan; you just have to be there.

Well that is about all for now. Merry Christmas and a Happy New Year to all, and Good Night Miss Daisy.

The Prop Turner

Mike Duncan

Mach 5 Musings

If you have taken a lap around Lake Tahoe recently you have noticed winter is trying to push fall aside. The mountains are snow-capped and the morning temperatures in the foothills are in the high 30's. The planes are liking the cooler air as they leap from the runway. Halloween and Thanksgiving are in the rear view mirror. This year as we all know has been a challenge in many ways. The phrase the "new normal" has been thrust upon us. As November comes to a close, it is truly time to take stock of and appreciate what we have. There is still much to be thankful for even in this odd and chaotic of years.

Wishing all a Happy Thanksgiving and a joyous holiday season. Until next month, keep the dirty side down.

Placer County Law Enforcement Chaplaincy Fundraiser

On Saturday, November 21, the Placer County Law Enforcement Chaplaincy teamed with the Auburn Police Department to host a fundraiser helping to fund the important and incredible service that law enforcement chaplains provide to the community. Folks were encouraged to stop by in "drive-thru" fashion to receive a pancake breakfast including 2 pancakes, 2 eggs, 2 sausages and coffee/juice. All this for only \$10! Our own airport community has come together on various occasions to support these incredible men and women. We're certain this fundraiser was also a success! Photo credit to Larry LaVerne, who attended.

Veteran's Day Observation

by Larry LaVerne

Members of the community came together for an observance of Veteran's Day at the clock tower plaza in Auburn, CA on November 11, 2020.

Video of the day can be viewed below. So many folks helped to make this happen. Many thanks to all of you!

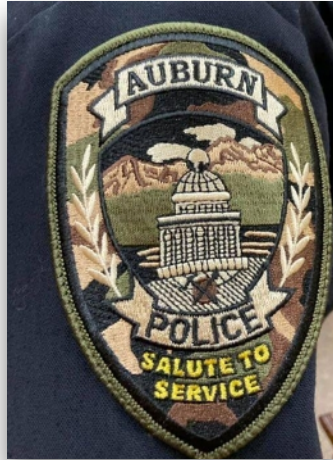

Lots of Veterans were there as well as non-Veterans. Our bugle (trumpet) player did a great job even though he didn't take his mask off. Thanks to the Placer High School Jazz band for supporting this event.

Tom Dwelle made a very spectacular fly over that got everyone's attention and the release of the white doves drew lots of "ahhh"s!

The medal handed out this year was in recognition of all honor guards. Many thanks to our Auburn Honor Guard who did a great job of displaying the colors and those men who performed the three volley salute! The national anthem was quite a hit and beautifully done. I don't have all the names of these folks; please forgive me.

And as usual, our first responders were there to ensure our safety and well-being. Those folks are amazing and we owe so much to their willingness to put their lives on the line for us! Well done!

Don't forget that the Auburn Police Department, downtown,

has beautiful shoulder patches for sale to the public. The entire proceeds go to support the Auburn American Legion Post 84. The Auburn Police Department is located at 1215 Lincoln way, where Highway 49 runs into Lincoln way. \$10 gets you this large shoulder patch (pictured to the right).

Ok, now we have to start planning for next year. And do not forget, the Wreaths Across America ceremony will be held December 19, 2020. Again, due to Covid 19, there will be restrictions at the cemetery and those will be published so you know what to do and when to do it. **Paula Celick** is the director of the program and can be reached at crowpaula0211@gmail.com. Our own Auburn Journal will be running stories outlining the WAA guidelines so be sure to check the paper often.

We owe a great big *THANKS* to our very own Auburn Veterans Day Parade Committee! I know they spent hours and days meeting, calling, emailing and texting getting all the tasks done that enabled our beautiful city to honor our Veterans, even with the Covid 19 restrictions. Thank you, thank you!!

Larry Laverne

Around the Airport

by Mac McElroy

Thank you to Aaron & Heather Burns!

Aaron and his wife Heather have decided to take on the acquisition of the pilot lounge furniture personally. In addition, Heather owns a [home staging business](#) and has agreed to be the interior designer. This is fantastic news! Our lounge may become known as the Burn's Lounge or Heather's Place! Stay tuned!

Here's a "before" picture of the inside of the pilot lounge.

Thank you to our Local EAA Chapter 526!

During the discussion on our visibility sensor at the 5AC Meeting, Steve Kendall mentioned that the EAA Board had approved the expenditure to purchase a new video camera. It will have a view of the airport that to help supplement and confirm the information that pilots are getting from AWOS as visibility. The EAA plans to make access to the camera public. Airport webcams are available across the U.S. and now KAUN will have its own. It should be up and running in the next several weeks. We'll make an announcement when that happens. Links to the camera will be available on the EAA, AAA and City websites.

AOPA Airport Support Network

Mark Bateson is the new Auburn AOPA Airport Support Network (ASN) liaison. The AOPA ASN is a group of volunteers dedicated to promoting and protecting community airports. The program's goal is to have an ASN volunteer liaison at every public-use airport in the country to serve as an "early warning system" for local airport issues. Mark lives in Roseville, earned his PPL through Sunshine Flyers. Mark owns a C-172 that's on the east end ramp. You may have seen him from time-to-time at the airport over the last 20 years on his motorcycle or shooting photos. I've seen a guy on a motorcycle in full riding gear coming out to the airport for as long as I've been at the east end, but never had the opportunity to meet him. I'm very glad to associate a name and face with that person today! Congrats on your new position and welcome Mark!

Scholarships! Scholarships!

By Don Wolfe

We are excited to announce the 2021 Scholarship season is upon us. Applications will be open on December 1, 2020 with interviews slated for February and March 2021. Auburn Aviation Association has teamed up for the second year with KAUN EAA Chapter 526 to conduct the application and interview process.

Six scholarships are available for 2021! There are four flight scholarships and two paid reservations at the EAA Advanced Air Academy at Oshkosh.

The Scholarships are as follows:

- Col. C.E. "Bud" Anderson Flight Scholarship
- EAA Chapter 526 Flight Scholarship
- Jason Randall Leys Flight Scholarship
- Flight Scholarship sponsored by Mach 5 Aviation
- EAA Advanced Air Academy Trip (2 awards)

The four flight training scholarships provide monies for pilot training to a maximum amount of \$2500 each*. The flight training must occur at the three flight schools located at KAUN Auburn airport. Students can train in fixed wing aircraft or helicopters and attend ground school training online. Any additional cost of instruction will be incurred by the students, their families, or support groups. Applicants must be age 16 to 23 as of December 31, 2021.

EAA Advanced Air Academy- Two applicants who will be age 16 to 18 as of July 20, 2021, will each receive full tuition (\$1605) to attend a one-week session of the EAA Advanced Air

Academy during July 2021. This summer camp is held at Oshkosh, Wisconsin. Airfare to and from either Green Bay or Appleton will be the responsibility of the student and his/her family. In a case of hardship, Chapter 526 will consider a request for financial aid for transportation.

The application and further information will be available online on December 1, 2020 at: <https://aaa2.wildapricot.org/Scholarships>

*Note: Mach 5 Aviation Flight Scholarship is 10 hours of flight time to include airplane, instructor, and associated ground lesson, no cash value. Ground school is included with these awards courtesy of Flight Apprentice LLC.

Endowment Lands Major Donation

We are thrilled to report to you that the Auburn Aviation Association's Scholarship Endowment has just received a very large donation. CORE Placer Charter School recently made the decision to discontinue operations and their board of directors was holding internal discussions over what to do with the operational funds they had remaining. AAA member Mr. **Noah Mackenroth**, a member of the CORE Board, suggested that they contribute those funds to the AAA Endowment. After extensive discussions, debate, and research into AAA's mission, CORE donated

approximately \$88,000 to our endowment that is held by the Placer Community Foundation. Mr. Mackenroth is the father of past AAA scholarship recipient **Renata Mackenroth**, as well as the son of an early AAA member **Jeb Mackenroth**.

"This is a game changer for us," said AAA Scholarship Chair, **Don Wolfe**. This donation will slightly more than double the size of our scholarship endowment and will enable us to substantially expand our outreach to Auburn area youth. This is going to necessitate some re-thinking of our future scholarship plans. It opens up

new scholarship opportunities for us, and the AAA board will need to decide exactly what direction we want to go with it. "I think it's very important that we put these funds to good use, and to justify the faith that CORE has put in us," stated past AAA President Doug Fee.

The AAA Board of Directors, and the entire association would like to very heartily thank Mr. Mackenroth for pursuing this, as well as CORE's Board for their extremely generous donation. We will endeavor to justify the trust they have put in the AAA scholarship mission.

Noah and Renata Mackenroth after Renata was awarded the AAA Scholarship in 2018.

AAA Lifetime Members

by Don Wolfe

AAA Lifetime Members Joanie and Wayne Mooneyham

This month we feature AAA Lifetime Members Joanie and Wayne Mooneyham. Their story begins in Hialeah, Florida where the Mooneyhams met at an outdoor roller skating rink. Joanie was 13 years old and Wayne was 16. For those of you familiar with auto racing, Joanie and Wayne roller skated and grew up with the famous NASCAR/ Indy Car Racer Donnie Allison.

Wayne's family was deeply involved with horses. His early teen years were filled with quarter horse riding and competitions. Showing a horse named "Blaze," Wayne won the Florida State Quarter Horse Championship at the young age of 14! This achievement in Florida began a long list of "podium finishes" for Wayne throughout his life.

The Mooneyhams married in Florida on May 27, 1962, promptly drove to California on their honeymoon, and have enjoyed 58 years of marriage on the west coast. Early in their marriage, Joanie would come to know just how passionate Wayne was about racing when they shared their first competitive sport together. The sport was "autocrossing" with their '57 Corvette. Wayne fabricated a special cushion for Joanie so she could sit higher and have better visibility. He made gas and clutch pedal extensions so she could reach and operate the controls. They competed for several years in autocrossing and both have lots of trophies from their efforts. Wayne was CA State

Champion in his class several years. Joanie did very well, too, but lost out to a Cobra in the final event!

After their kids got "out of the nest," they both continued to compete in various sports. While Wayne sailed Hobie Catamarans in competition around the world, Joanie took up trap shooting. She competed for several years including the National Trap Shooting Competition in Dayton, Ohio. Joanie garnered a collection of trophies and even did her own shell "reloading." Her favorite gun for competition was an over/under Perazzi 30" barrel. The "highlight" of her shooting career came in 1988 at the CA State Shoot. Joanie was "High Lady" shooting 97 (out of 100) at Handicap Yardage for 3 out of the 5 days of competition!

Those of us that know Wayne realize he is a very humble man and reluctant to share any of his accomplishments. That being said, Joanie is proud to point out that Wayne is the former National Hobie Cat sailboat champion in two separate classes.

He also raced in the Baja 1000 and Mint 400 in a car he personally built for off-road racing. Wayne and Sterling Holloway continue a gentleman's competition on the pool table even today. If you happen to

challenge Wayne to a game of 8 ball, be advised to take note of his smile as he "chalks up" the pool cue. I personally witnessed "the smile" a few years ago when Wayne and I discovered a pool table in the Lodge at Sulphur Creek, ID. We had a great time playing pool that day and I witnessed many of Wayne's great shots!

When it comes to flying airplanes, the Mooneyhams have been at it for quite a while.

Wayne's first flight was in December, 1958, in a Luscombe at Kendall Field just south of Miami. Two weeks later on January 1959, he soloed. Wayne's dad, an aircraft inspector for National Airlines, was instrumental in his introduction into flying. Wayne eventually was hired on with United Airlines as a DC-6 Flight Engineer in 1967 and retired from UAL as a 757/767 Captain in 1998. Wayne was able to achieve something very special by flying his retirement flight at United with son Mark serving as his co-pilot. Wayne continues to fly his 180 hp Super Citabria on local flights and to the Idaho back-country on an annual basis.

Joanie enjoys being a "back seat driver" when it comes to flying. She took lessons, went to ground school and received 11 hours of dual flight time but didn't pursue solo flight. After the kids were grown, she went to ground school again and remains happy in the backseat of the Citabria as the #1 co-pilot for Wayne.

Following Wayne's retirement from airline flying in 1998, Joanie continued to work as a realtor until 2003. They then moved from San Jose to Auburn and never regretted the change. Wayne continues his support of AAA and other non-profit organizations while Joanie keeps busy with AAA duties and as a Trustee on the Sutter Auburn Faith Hospital Foundation.

Wayne has served as AAA President twice when

the term was two years long and also was Chairman of the 5AC for several years. He now enjoys supporting AAA in "retirement" as a member, mentor and senior adviser.

Joanie is pleased to continue serving as the Secretary for AAA, a position she's held for several years. She was also instrumental in the success of several AAA fundraising events over the years. In Joanie's words, "Chairing the 2012 and 2014 'Thunder in the Sky' events is the highlight of my involvement. With an amazing team, many still members today, we put on successful and fun events - lots of work with huge rewards through amazing teamwork. The spirit of our organization has flourished over the years and the huge success of our scholarship program and establishing the PCF Endowment Fund shows the amazing commitment of our members to promote aviation for our youth."

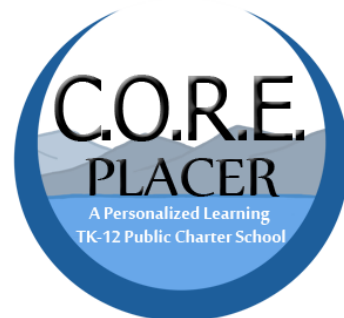

In retirement Joanie and Wayne continue to enjoy their family and friends. They have two sons, daughters-in-law, 6 grandkids and 2 great grandkids and many, many friends. Joanie shares one of the secrets to a successful marriage: "One thing we have always done is 'never go to bed angry' - it's worked for 58 years and still goes!"

The Mooneyham's set an excellent example of having one's finest hour in retirement. Joanie and Wayne have proven time and again throughout their lives that setting goals and using one's competitive spirit to "stay the task" will result in success and completion of the goal. They've remained deeply involved in community programs, served as mentors in many capacities and are quick to step up to the plate in a leadership role when needed.

Joanie and Wayne Mooneyham: your lasting devotion to Auburn Aviation Association and the Community of Auburn is appreciated by all. Thank you for everything you do.

Engraved Bricks for Veterans

Commemorative Bricks are available for sale to be installed around the Monument at Auburn Airport. As many of you know, our Association has taken on the task of ordering the bricks for the amazing Doug Van Howd monument honoring WWII veterans. For those of you who haven't seen it, stop by the grassy area at Wings Restaurant - you'll be awed and amazed. Bricks cost \$500 each. Proceeds, after costs, go to fund the "Col. Bud Anderson Scholarship Fund." See form on the next page for ordering. Questions? See Secretary, Joanie Mooneyham, 530-878-0434.
